

# DETERMINATION OF NONSIGNIFICANCE

## Guemes Island Ferry Replacement

### Description of Proposal

Skagit County proposes to replace its current 21-vehicle, 100-passenger diesel ferry serving Guemes Island with an electric ferry serving up to 32 vehicles and 150 passengers per trip. There may also be minor modification of the ferry terminal itself (e.g. wing walls, dolphin fender heights, transfer span) to accommodate the new ferry and to facilitate concurrent passenger and auto loading, and to add a new electric power supply.

### Proponent

Skagit County Public Works

### Location of Proposal

The primary study area consists of the ferry service route between the Anacortes Terminal and the Guemes Island Terminal. A secondary study area consists of Guemes Island for the purposes of reviewing potential indirect and cumulative effects of growth.

### Determination and Comment Period

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available at the project website:
